## Microsoft Double Certification

Thanks to the CAM130's all-new Microsoft Double Certification, Microsoft Teams Rooms works together and switches seamlessly between conferencing and content camera mode, facilitating all kinds of virtual communication.

## Premium Quality Components

Experience professional 4K quality with a Sony WDR sensor for only the most premium content sharing experience. A 120-degree viewing angle means no content will be out of frame and 5X digital zoom capabilities deliver wide, yet precise viewing of content. Turn around the camera and experience the same quality for virtual conferences.

## Effortless Whiteboard Sharing

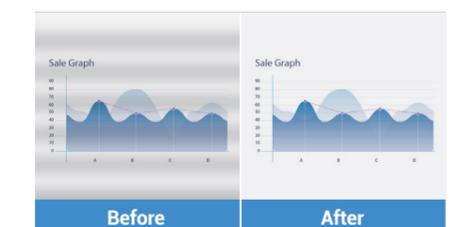

Deliver information effortlessly through the CAM130 Content Camera's automatic whiteboard reframing function, making it possible to easily share clear content no matter the angle. Thanks to Microsoft Teams Content Camera Certification AI, whiteboard sharing is automatically sharpened, and presenters are made translucent when standing in front of whiteboard content.

## Visible Flicker Decreases

Clear out annoying black flickers common when recording IFP displays with smart AVer flicker removal technology. Sharp content sharing no longer discriminates between electronic and non-electronic whiteboards.\*

\*Please download PTZApp 2 to setup these features. (Free of charge)

## Flexible Installation Options

Install easily and conveniently using the optional adjustable-length whiteboard mount add-on, thoughtfully designed to meet the needs of any room or whiteboard. Featuring robust construction and generous cable space, the AVer wall mount is a perfect match for the CAM130 Content Camera.
